Y. M. C. A. PLANNING POSTWAR BUILDING PROGRAM IN STATE

More Than \$300,000 Budgeted for New Construction and Remodeling

Mississippi Y. M. C. A.'s will spend more than \$300,000 for postwar construction and remodeling to meet changed community needs and demands for more co-educational programs, according to R. L. Rayburn, senior secretary of the national Y. M. C. A. building bureau.

Construction slated in Mississippi is part of a \$50,000,000 nation-wide "Y" building program, he said, adding that figures for this state will be greatly increased as estimates of other projects are completed.

The swimming pools, more club rooms and a large general purpose room, all suitable for co-educational uses, are planned in most future "Y's" Rayburn said.

Dormitories are due for redesigning, according to Rayburn, who pointed out that "Y's" throughout the country last year had a bed-night occupancy of more than 24,244,000. Better materials and decorative schemes will be used and even dormitory shower rooms restyled. In showers tile will continue to be installed because of its low upkeep and a different color will be employed in each to give these facilities individuality.

About 90 per cent of all new "Y" buildings will have swimming pools, Rayburn said. Most will also feature a large general purpose room for forums, banquets, club sessions, dances and other co-educational functions, and a large number will include a chapel in their plans.

Mississippi at present has 9 Y. M. C. A.'s. Membership in the state totals more than 5,000 persons.

Outline Plans For New Cars

Dearborn, Mich.—Plans for the 1946 Ford, Mercury and Lincoln car and truck production and distribution program were discussed here this week by Ford Motor Company executives, Regional and Branch Plant Superintendents.

The meetings opened Monday in the Ford Rotunda with a talk by Mr. J. R. Davis, Director of Sales and Advertising.

Mr. Davis indicated that the postwar line of Ford, Mercury and Lincoln automobiles would be greatly expanded to provide models and styles to cover every price field from the lowest to the finest in style and performance in the automotive industry.

The meeting was highlighted Wednesday by a luncheon address from Mr. Henry Ford II. Mr. Ford spoke to the entire Ford supervisory family of approximately 200 executives and department heads.

Mr. Ford covered the trend of the automotive business for the past 10 years and projected in detail the engineering, manufacturing and distribution plans of the company that eventually will provide thousands of additional jobs.

He outlined the company's proposed 150 million dollar expansion program, designed to step up Ford's share in the automotive business.

Emphasizing, however, that the company has a war job to do.

Mr. Ford explained that, "Many of our war contracts have already been terminated, and more of them will be soon, because we were principally engaged in manufacturing material for the European theater."

"As our service becomes less and less necessary to the direct war effort," he said, "we will complete the shift from war work to mass assembly of automobiles just as rapidly as government restrictions are removed."

"We will do everything in our power to shorten the transition period, and to prevent a serious slump in employment which would result from a prolonged postponement of passenger car production for civilian use."

—Mrs. F. E. Dematatis who underwent a major operation last Wednesday at Hotel Dieu, New Orleans, is reported greatly improved. Mrs. Dematatis was formerly Miss Joan Mauffray. She is now living in Washington.

Mrs. Fayard said that she had a letter from him about a week before in which he stated that he had not been well and was temporarily off flying time but it is not known whether this had any bearing on his drowning.

Deep sympathy is extended to Mrs. Fayard in this great loss that has come to her.

A Reminder To Local Fishermen

Your new fresh water fishing license is now due. July 1st was the dead line.

"If you don't want to be embarrassed or subject to fine better secure that license now," says Randolph Bourgeois, State Game Warden.

According to those who know, green trout and perch have been biting at their best of late.

Several nice catches were reported.

The fish are plentiful, due largely to the restocking of the streams here about by the State Game and Fish Commission.

They are biting everywhere especially in Jordan River, Bayou LaCroix, Rotten Bayou and the numerous small bayous in this section.

Fine Singing at DeLisle Catholic Church

Last Sunday, July 1st the congregation of Our Lady of Good Hope had the pleasure of hearing the superb voice of Mrs. Frances True, with an extraordinary range of the mezzo soprano type. She rendered with exquisite expression the Ave Maria of the beloved Gounod. It takes really an artist to interpret the work of another artist of genius, like the Great Gounod who has given to the world such inspired and angelic melody like "Heaven Has No Lovers." The Church at DeLisle resounded to the divine praises by a visiting artist like Mrs. Frances True who was heard to great advantage last Thursday in New Orleans on the Loyola Radio Station. Honor to whom honor is due.

Father Costello and the chairman wish to thank everyone who helped in any way.

15,600 German Prisoners Being Worked in Mississippi

Atlanta, Ga. July 2nd.—Approximately 15,600 German prisoners of war are held at base and side camps in Mississippi and are assigned to work as needed to relieve the manpower shortage in agriculture, timber or industry under private contract or at Army installations for maintenance and repair, Major General Edward H. Brooks, commanding general, Fourth Service Command announced here today.

Using prisoners on private contract only when civilian labor is not obtainable and on Army installations to release American soldiers for other duties or for jobs for which civilian workers cannot be found.

The working prisoners are paid \$30 cents a day in canteen camps, but only a day with a sharply curtailed list of items available, General Brooks explained. The prisoners are shifted under private contract as need for labor demands and in Mississippi they are hoeing cotton, corn, other field crops and some are harvesting out. Some are working in chemical wood and pulpwood and late in the fall will pick cotton.

In Mississippi prisoners are held at the following camps, the number and assignments varying in accordance with seasonal needs or work load requirements:

DeLisle, 413, agriculture; Brookhaven, 251, pulpwood and lumber; Clarksdale, 512, agriculture; Clinton, 1,932, base camp; Como, 1,393, base camp; Drew, 494, agriculture; Ekaas, 494, agriculture; Greenville, 251, agriculture; Greenwood, 304, agriculture; Hattiesburg, 356, agriculture; Leland, 491, agriculture; Camp McCain, 5,345, base camp; Merigold, 250, agriculture; Piquette, 227, pulpwood and lumber; Richmon, 303, pulpwood; Rosedale, 250, agriculture; Saucier, 305, pulpwood; Camp Shelby, 1,989, base camp.

Canteen Comments

Last Saturday evening was one of the canteen's big nights and for departure from the usual group there were a number of Army men which is most unusual. But they were welcome and it is hoped that they will patronize the canteen often. Cold tea is the favorite beverage there now and the boys seem to enjoy it.

The great need just now is a place where service men who come to Bay St. Louis for Saturdays and Sundays may go swimming—that is a room where they may go to put on their bathing suits and leave their clothes while swimming. The ladies are looking out for just such a place, which the boys may call their own, and where they may feel free to go when they feel that they want to go swimming. You may hear a little more about this next week but in the meantime try to locate a place not too far from town. The ladies who are sponsoring the canteen have been taking some of the boys to their homes but in this way some of them are left out. Get the boys a room.

A canteen telephone fund has been started whereby the boys may have the use of a telephone for long distance calls to their homes.

Twice a week it is planned that each boy in uniform who comes to the canteen will have the privilege of drawing a paper from the Telephone Fund box and the one drawing the paper with telephone on it will be allowed to call his home and the toll will be taken from the fund. If it should be necessary for an emergency call this will be taken care of by the fund.

Does someone wish to contribute to this fund? If so, leave your money with Mrs. A. P. Smith, Mrs. C. C. Mayfield or Miss May H. Edwards.

COOK ELECTED

Dr. R. C. Cook, who had been connected with school work at the University and elsewhere in the state has been elected President of Mississippi Southern College at Hattiesburg, to succeed Dr. J. B. George who was not reelected. Mr. Cook will assume the duties of his new position on July 1. At this time nothing has been done by the Board of Trustees in the matter of selecting a successor to Dr. Humphrey at Mississippi State College. Dr. Humphrey will report in July for his new position as President of the University of Wyoming.

TRAFFIC DEATHS

The traffic death rate in the first four months of 1945 is slightly better than last year. In all the states the decrease in 1945 is 4% compared to 1944. In Mississippi the decrease in traffic deaths for the four months is 38%. In Mississippi in the first four months of 1945 sixty-five people were killed compared to 104 in 1944. In Alabama the death rate in 1945 has increased 11% over the same period of 1944.

FOREST FIRES

According to figures released at the Capitol the number of forest fires in the state in 1944 was reduced to 2273 as compared to the record of 1943. The number of fires in the state in 1944 was 5454. In 1944 the number was 3181. In Mississippi Confederate Veterans, has 1943 the total acreage burned over was 171,736. A campaign against fires and extraordinary vigilance of the field men made the improvement.

DOCTORS

In connection with the movement, brother to County Judge Luther

to establish a four-year medical college and a large central hospital in the state, much is being said about the urgent need of more doctors. It is said that, taken as a whole, there is one doctor to every 2,343 residents in the state. The figures used show that about 17% of the doctors of the state are in military service and the other 83% are in active practice. One of the main reasons for the proposed medical college is to induce more young men to study medicine so that in the future there will not be a real shortage of doctors in the state.

I. B. TIGRETT

The Commercial-Appeal of Sunday June 17 has a very interesting full-page article on the accomplishments of I. B. Tigrett, the Jackson Tennessee boy who is now President of the G. M. & N. Railroad Company. Mr. Tigrett's father was a Baptist preacher and educated his son in Union University, Jackson, Tennessee. "Ike" went into banking business in early life, and succeeded. About thirty-two years ago the was elected president of the G. M. & N. Railroad Company, "until a more suitable man could be found." He was only thirty-three years of age when elected, said to be the youngest railroad president in the United States; and now, after thirty years of continuous service, he is said to be the oldest man, in point of service, now holding such a position in the United States. Mr. Tigrett has made a wonderful record, and is constantly extending his lines and improving the service. He gave the South its first streamlined train and was first to put a hostess on the train. Mr. Tigrett always receives a warm welcome when he comes to Jackson, or on his visits to other points in Mississippi.

RAGING AROUND

In the special election in Issaquena County, W. M. Cole, and not W. M. Moore as erroneously stated last week, was elected to succeed J. C. 1943. The number of fires in the state in 1944 was 5454. In 1944 the number was 3181. In Mississippi Confederate Veterans, has 1943 the total acreage burned over was 171,736. A campaign against fires and extraordinary vigilance of the field men made the improvement.

Manship of Jackson and son of the late Lt. Gov. Luther Manship who was a life-long citizen of Jackson. John W. Wiks, prominent newspaper man of Florida, has been named as Chief of the Bureau of The Associated Press at New Orleans. The prospects are very good for the establishment of a newsprint mill in Mississippi right after the war. Dr. M. B. Pearce of New Albany has been named by Gov. Bailey as a member of the State Board of Dental Examiners. Mississippi Title Insurance Company has been organized in Jackson and is now in operation. It has for its president Judge O. B. Taylor, and a number of other prominent men in Jackson are connected with the Company. Its purpose is to pass on and insure titles to property. On Monday and Tuesday of this week the State Medical Examination is being held in Jackson. On Monday and Tuesday of next week, July 2 and 3, the State Bar Examining Board will hold a meeting in Jackson. Members of the Board are: Leon P. Hendrix, Jackson, President; Earl Wingo, Hattiesburg, Secretary; and J. E. Carridine, West Point. The Jackson Chamber of Commerce has started a movement for the erection of a federal building in Jackson to house the numerous government agencies and activities operating in the Capital City. The Legislature at its regular session next January will consider the proposition of erecting a new office building to take care of the overflow from the two Capitols. The thirty-seventh annual meeting of the Governors' Conference will be held July 1-4 at Mackinac Island, Michigan.

ORTTE THEATRE SUNDAY AND MONDAY "PATRICK THE GREAT"

Sparkling with gay songs and paced by lively routines, Universal's "Patrick the Great," comes Sunday and Monday to the screen of the Ortte Theatre. This bright new picture, however, brings more substantial entertainment than might be expected in a musical screen drama. The plot is solid and arresting from beginning to end. Its players are competent and well chosen. The stars are Donald O'Connor and Peggy Ryan, two of Hollywood's outstanding youthful performers.

Directed by Frank Ryan, the story of "Patrick the Great" takes for its theme the professional rivalry between a musical comedy star and his son. Young O'Connor has the latter role, a spectacular but difficult assignment. How the youngster lets sentiment balk his own theatrical ambitions, is achieved with splendid dramatic effect with Cook as the unaware father.

Miss Ryan, of course, as in the recent "Merry Monahans" is teamed romantically and musically with O'Connor. Miss Dee, more attractively lovely than ever, is seen as another problem in the father-son rivalry. Miss Arden is revealed as a competent comedienne.

Scattered generously throughout the plot are the songs and dances which drop logically into place as the action progresses. A Broadway theatre, a little theatre, and a swank mountain resort are chief backgrounds for the film's musical interludes.

"A ROYAL SCANDAL" AT A. & G. THEATRE SUNDAY AND MONDAY

The famous "Lubitch touch" has cut loose again, and this time it has delivered a walloping package of top entertainment in "A Royal Scandal," which will be at the A. & G. Theatre Sunday and Monday, and which is the most hilarious hit yet from the screen's master of subtle, saucy comedy.

With Tallulah Bankhead, Charles Coburn, Anne Baxter and William Wythe in starring roles, "A Royal Scandal" tells of some merry goings-on in the Russian Imperial Palace during the reign of amorous, glamorous Catherine the Great. While the titillating tale related here is not mentioned in the history books, Catherine the Great being Catherine the Great, the whole smacks of more than mere keyhole scandal, and is twice as delectable.

Tallulah Bankhead plays Catherine the Great to a royal fare-thee-well. In her hands, what might have otherwise been handled as merely a broad burlesque characterization emerges as a joyously conceived, exquisitely deft portrayal. In brief—Tallulah is terrific!

As the wily Chancellor, Charles Coburn proves once again the stuff of which Academy Award winners are made. This is his most unusual role, and his best.

Anne Baxter offers a wonderful surprise in her first glamorous role as the lady-in-waiting who unexpectedly finds herself in romantic competition with the queen, herself.

William Wythe definitely establishes star status as the young lieutenant who obeys the queen's every command—with pleasure.

The brilliant supporting cast of "A Royal Scandal" is headed by Vincent Price.

In addition to the "Lubitch touch" the film sparkles with "Premingerish" for it is to Otto Preminger's direction that "A Royal Scandal" owes much of the quality that makes it a "must see" on every movie list.

Savings accounts
may serve in
many ways

It would require a full length book to print the 'case histories' of the many uses of savings. Small merchants use them when they need cash within an hour. Mothers use them when some member of the family must have cash at once. Others find them a friend indeed when an accident occurs, when an emergency operation is necessary, when an unexpected vacation is offered, when payments for taxes or other immediate needs are involved. There just isn't any substitute for a savings account in your own name. It requires only a few minutes to open your account at this bank.

WAR BONDS

The instrument itself is only a very small part of the facilities needed to furnish you telephone service. The necessary wires must be available from your house to the telephone central office... there must be available switchboard facilities... and a great deal of other equipment.

Major additions to telephone facilities have been stopped for over three years because the manufacture of telephone equipment has been diverted to the needs of our armed forces.

To meet the demands of the thousands who are waiting for service, Southern Bell is engineering a program of expansion to begin when equipment is available. As this necessary new material and equipment does become available additional time will be required for its installation and to catch up on present held orders for service before new telephones can be installed without delay.
